Employee Policy Manual — 2026 Edition

This fictional policy manual is designed for a Retrieval-Augmented Generation (RAG) practice project. It contains sample company rules covering working hours, leave, remote work, expenses, security, professional conduct, and benefits. It is not an actual company policy.

1. Working Hours and Attendance

Standard working hours: Employees normally work Monday through Friday from 9:30 AM to 6:00 PM, with a one-hour lunch break. Employees are expected to be available during core hours from 10:00 AM to 4:30 PM.

Late arrival: Employees arriving more than 30 minutes late should inform their manager before 10:00 AM and record the reason in the attendance system.

Attendance: Employees must record attendance through the company attendance portal. Repeated unexplained attendance violations may result in a review by Human Resources.

2. Leave Policy

Leave Type	Annual Entitlement	Key Rule
Casual Leave	12 days	For personal or short-duration needs
Sick Leave	10 days	Medical reason; certificate may be requested for extended absence
Earned Leave	15 days	Requires manager approval and advance planning
Parental Leave	26 weeks	Available to eligible employees under company policy

Leave requests of up to two consecutive working days should normally be submitted at least one working day in advance. Requests for three or more consecutive working days should normally be submitted at least five working days in advance. Emergency leave should be reported to the manager as soon as reasonably possible.

3. Remote Work Policy

Eligible employees may work remotely up to two days per week with manager approval. Employees must maintain normal working hours and remain reachable through approved communication tools.

Equipment: Company laptops may be used for approved remote work. Employees must use a secure home Wi-Fi network and should avoid accessing confidential company information from public computers.

Office attendance: Teams may require additional in-office attendance for client meetings, training, security activities, or important team events.

4. Business Travel and Expenses

Employees traveling for approved business purposes may claim reasonable transportation, accommodation, and meal expenses. All claims must be submitted through the expense portal within 15 calendar days after returning from travel.

Receipts are required for individual expenses above INR 1,000. If a receipt cannot be obtained, the employee must provide an explanation and obtain manager approval.

The standard hotel reimbursement limit is INR 5,000 per night for domestic travel. Exceptions require prior approval from the department head.

5. Information Security

Employees must use multi-factor authentication for company systems where MFA is enabled. Passwords must not be shared with colleagues, stored in plain text, or sent through personal messaging applications.

Confidential documents must be stored only in company-approved storage systems. Employees must not upload confidential company files to personal cloud storage, public repositories, or unapproved AI tools.

Any suspected phishing email, credential compromise, malware incident, or accidental disclosure of confidential information must be reported to the IT Security team immediately.

6. Professional Conduct

AcmeTech expects employees to maintain a respectful and professional workplace. Harassment, discrimination, threatening behavior, retaliation, and deliberate misuse of company resources are prohibited.

Employees should use company communication channels primarily for work-related activities. Confidential business information must not be discussed in public forums or social media.

7. Performance and Probation

New full-time employees normally complete a six-month probation period. During probation, performance, attendance, role suitability, and professional conduct may be reviewed.

Employees receive a formal performance review twice each calendar year. Managers may also provide informal feedback throughout the year.

8. Employee Benefits

Eligible full-time employees receive health insurance coverage according to the plan selected by the company. Employees may also participate in the company retirement savings program after completing three months of service.

The company provides a professional learning allowance of INR 12,000 per financial year for eligible employees. Courses and certifications must be relevant to the employee's role and receive manager approval before purchase.

9. Policy Questions and Escalation

Questions about attendance, leave, benefits, or employment conditions should be directed to Human Resources. Questions about passwords, suspicious emails, security incidents, or access permissions should be directed to IT Security.

This fictional manual is intended only for demonstrating document retrieval and question answering in a RAG system.
